

Breaking The Law Is Not Cool!

- Using Drugs
- Selling Drugs
- Underage Drinking
- Driving The Wrong Way Down A One-Way Street
- Speeding
- Running Stop Signs

All of these things are against the law, and breaking these laws can have deadly results.

So what does that have to do with talking to strangers, people you only know online, in Instant Messaging areas of the Internet?

Linking up with someone you met through the Internet can have deadly results; just as running a stop sign can take your life and the life of another driver.

What is a law anyway? A law is a rule of conduct. Our conduct over the Internet is very important. If we don't obey the rules (laws) of Internet Safety, we may be putting our lives and the lives of those we love in danger.

- Never Reveal Personal Information To Anyone You Met Online
- Never Agree To Meet Anyone You Only Know Online

Breaking the law is not cool! Tell your friends!
