

RULES ARE NOT *Just* FOR KIDS!!

O.K. So you think Internet Safety rules are ridiculous and unreasonable.

Did you know that these rules are not just for you, but they are for every person using the Internet no matter what their age? They are just as important for a 90 year old as they are for a 10 year old! Make sure your parents know all of the rules about staying safe on the Internet.

There may be times when you want to yell at your parents and tell them they are treating you like a little kid. Prove to them that you are mature enough to understand that using the computer is a privilege. Privileges are earned. Obey the rules in order to enjoy the freedom of using the Internet.

STOP!
OBEY INTERNET SAFETY RULES
